# REGULATORY & CONSULTANCY

## YOU NEED

→ **To define the best strategy** to get the Marketing Authorization

→ **To analyse available data**, identify missing data

→ **To build an efficient Marketing Authorization program** that is suitable for your needs and optimized in terms of deadlines and costs

→ **To manage, prepare and submit** all or part of your registration dossiers

→ **To be informed about new EU and national regulations**

## OUR EXPERTISE

- Recommendations about the best strategies for getting a Marketing Authorization
- Preparation of the experimentation permit
- GEP and GLP pan-European project co-ordination
- Preparation of European and national evaluation dossiers:
  - → for active substances and PPP according to EC 1107/2009 regulation (all sections)
  - → for nutrition products according to EC 2003/2003 or national regulations
  - → for biologicals according to European and national specific requirements
- Risk assessments (Human, residues, eco-toxicology & e-fate)
- Registration dossier adaptation for Member States' requirements
- Contacts with European regulatory authorities at customer's request
- Translation (official documents, labels, SDS...)
- Regulatory watch & training
